[REDACTED]

1. The attached sketch of the SCHWEINRICH (W 54/U 22) troop training grounds [REDACTED]
2. The eastern sector of SCHWEINRICH had been cleared of the civilian population to furnish quarters for troops. Fifteen to twenty cantonment buildings had been constructed northeast of town. More cantonment buildings to be set up there were allegedly en route to SCHWEINRICH.
3. Emplacements, allegedly for a mortar battalion, had been constructed east of SCHWEINRICH. Other artillery emplacements were located along the eastern edge of GADOW (W 54/U 21). Troops in the two emplacements practiced firing at a 250-acre, recently cleared target area in the center of the troop training grounds.

25X1 [REDACTED] Comment:

The sketch of the training grounds supplements previous data.* The location of the cantonment was confirmed. As troops previously practicing at SCHWEINRICH had been quartered in tents, it is considered possible that the troop camp may have been improved.
